My dear Sir,

I send herewith the statistical paper required by the Society filled up, as well as I have been able to fill it; the figures must in many cases be only approximate; the returns of communicants were had to be given last year's returns with a small increase, they are rather under than over the mark, as I have confirmed some 700 or 800 candidates since Nov 1.

During the last year our native ministry & its increase from the ranks of our catechists, has not been lost sight of: Jacob Maville was admitted to the Diaconate, immediately on my return in October, and we have now three men of middle age well tried and approved looking forward to the ministry, 2 in S. Marks district 1 in S. Albans, these have not come yet into residence at the college in Umtata, but I think as they are fairly well read, that one year's instruction here will be enough. 2 others are at Umtata itself, reading for the more difficult

Examination, while one is at Capetown helping the Cowley Fathers with their work amongst the Kaffirs of Capetown. That is 6 in all, actually looking forward directly to the ministry.

I speak of the ministry as being so all important and as a test too of the advance of the work in the past and present; and an earnest of the same in the future. I could speak at length on what is going on in the different parts of the diocese, of the extension, and especially I think of the consolidation of the work - for indeed our very great increase of the number of members of the Church, has often made me tremble for the quality of their Christianity, but I feel much more confident now on the head, or rather without presuming to say that our people have attained any very high character of holiness, etc., as a whole, still there seems to be more life, & more appreciation of what is required of them, by their profession, I think I may say this much.

In applying for the same grant to be made for 1890 as we have for the present year (with an addition of £100 for Pondoland) I would remark that with a view to the extension

Auth 6790

3

765

of the work within the limits of the existing mission parishes (and economy generally) a reduction of one sixth was made by our Finance Board which sits in October last, on all grants made to assistant workers of whatever colour, and this is in addition to the one third which was taken off a year ago; thus if a worker had £45 a year, last year £30 only of the same from head quarters, now only £25 will, the balance of £15 or £20 is required to be made up by local sources, either by offertories, subscriptions or donations at the harvest festivals: this was necessary as our work has been growing, and so many openings are continually being found. But we are not able in this way to put the long discontinued work in Eastern Pondoland into working order again. It is so remote, & the country is so isolated, there the effort must be a special one: and I do most earnestly hope that the sum of £100 be granted for such term of years as may seem fitting to enable me to push on the work. I need not repeat what I have said both on paper, and orally before y[e] standing committee

4 767

that will show the urgency and the importance of such a work; whether it be the greatness of the country, its great population, its nearness to our colonies, ~~and~~ or its utter barbarism.

The sister Society SPCK has promised us a similar sum for a medical mission in Pondoland, and

Inspect- I sincerely hope that ye Society will thus give us the means of placing along with this, an Evangelistic mission as well.

I am
My dear Sir
Yours very faithfully

I can assure you that the Society's grant of £500 for the mission in question, has been most warmly appreciated by me; by careful management it brings the Pondo mission within the range of possibilities. The SPCK have as you probably know, granted £100 a year for a medical mission in Pondoland, and a medical man, Mr Herbert Ley late of

the Univ: Mission, has agreed to come out, and, together, the £200 will be sufficient to support them. I wish Mr Mansbridge to go for a term not longer than 12 months to my old mission where Archdn Gibson is living, in order to pick up some knowledge of the language and of the ways of the people, it will be most useful to him. Dear Sir,

You will, perhaps, excuse my calling attention to an error which I have noticed twice in the Mission Field, and now again in the annual S.P.G.* Report. Pondos and Pondomisi are quite distinct: the former are an independent tribe, under their own chiefs, occupying Pondoland East and West. The only Church mission station in their country is S. Andrews. The latter are a tribe, under Government, living in Griqualand East, in the Isolo district and elsewhere, with S. Cuthberts and its offshoot stations working among them.

We have also 3 candidates for the diaconate in Advent, so that I hope by the end of the year our numbers may be greater.

Mr. Chater has got clerical work in Zululand, Mr. Stewart in the Transvaal: Mr. Jonkin is just leaving for the Fields.

I have called the Bishop's attention to the absence of Annual Returns to S.P.G. from this diocese, & of S.P.G. offertories. Certainly some of the latter were sent in to the diocesan office, but I presume that they were too late for the Report.

We have just drawn out a full statement of our receipts and expenditure from Easter '88 to Easter '89, of which copies will be sent home when printed. The "local sources" amount to about 2400£ out of total receipts of about 1100£, to the best of my recollection.

Several of the clerical addresses on p. 76 are now out of date - but there may be more changes before the end of the year, so that it is hardly worth while to correct them now. If you should wish it, I shall be happy to send you a full list of clergy and their stations in November or December.

The Bishop has, I am glad to say, heard of two men for S. Andrews, Newfoundland, who sound hopeful.

Col. Secy

Dear Sir,

I forward herewith my Annual Return for the Society.

I have sent, during the past year, in addition to the quarterly reports,

i. A printed report (Occasional Paper) of this mission for 1888.

ii. Four or five photographs of the mission

iii. Two letters calling attention to two errors in the Society's Annual Report for 1888 (confusion of Pondo and Pondomisi, and number of clergy in this diocese), &

asking whether an annual Return of our clergy would be acceptable.

I trust all these were received at their various dates.

At the end of last year I sent to Umtata as usual my S.P.G. Offertory for transmission to Delahay Street. It is quite clear that it had not reached the Society's Office when the Report was compiled. I shall, therefore, in future send direct to yourself: and will remit a draft as soon as I can get one from Umtata. I regret that the amount should be so small: but my parochial work is now much restricted, and lies

mainly among heathen natives.

I am, Dear Sir,

faithfully yours,

Alan G. S. Gibson
